Job Description

As a member of PHA’s Specialty Pharmacy Advisory Board, I will help improve specialty pharmacy service and guide the development of PHA’s feedback program. Specifically, I agree to fulfill the following responsibilities:

1. Provide patient or caregiver insight as to which specialty pharmacy practices work well and which could use improvement.
2. Work with medical professionals and representatives from both specialty pharmacies and drug manufacturers to guide specialty therapeutic services.
3. Generate ideas to market the feedback form to other patients, caregivers, and medical professionals.
4. Make recommendations to PHA about improving awareness of PHA services.
5. Stay abreast of issues related to specialty pharmacy service in the PH community.
6. Participate in four Advisory Board conference calls per year and additional email exchanges with PHA staff and population members as necessary.
7. If you are unable to participate in the minimum four calls per year, we will have a one-on-one call to discuss the circumstances and determine whether the time commitment is reasonable for you.
8. At the end of a two-year period, Advisory Board members have the option to resign or remain on the Advisory Board.
9. PHA understands that there are periods of time when you may need to take a “leave of absence” from the Advisory Board and rejoin later. This is completely fine! If this is ever the case for you, please email or call PHA to let them know at Insurance@PHAssociation.org or 301-565-3004 x773.
